

Cyber Exploitation

DVD-ROM Video

Multimedia I.D. Number: 275

CPT Hours: 2

DVD Shipping Date: 05/15/17

Cyber Exploitation is a serious crime that may result in significant harm to a victim's personal and professional life as well as their physical safety. A victim's economic position as well as their academic standing may also be adversely affected by these crimes. The posting of intimate images without consent undermines an individual's privacy, basic civil rights, and their public safety.

With the proliferation of mobile devices that can access the Internet anywhere and at any time, crimes in the cyber world have been increasing dramatically. As more people use their smart phones and other mobile and desktop devices for financial and personal communication in the years ahead, these crimes are only going to increase in the years ahead.

The goal for this training is to assist peace officers in responding to Cyber Exploitation crimes, be comfortable handling these type of incidents, and be knowledgeable about the resources available to agencies.

Segments include:

- Identification of Cyber Exploitation crimes
- Legal considerations for these types of crimes
- The Importance of victim contact in Cyber Exploitation crimes
- Investigation of these crimes
- Evidence and case preservation
- Resources and Final Thoughts

The DVD-ROM video program offers two viewing modes and printable instructor and trainee documents as follows:

Facilitated Group Course

Each segment features a short introduction, followed by scenarios with related questions and activities to assist in facilitating a group discussion. The facilitator has the option to play subject matter expert comments after the discussion to re-emphasize a training point or to ensure all topics are covered. A "Facilitator Guide" document (PDF) is included on the DVD-ROM for printout from a computer.

Informational/Individual Viewing

This viewing mode allows an individual trainee or a small group of trainees to view the training video without formal (classroom) facilitation by an instructor. Features the same scenarios and questions or activities as the "Facilitated Group Course" track. Individual viewers may view sample group discussions, followed by comments from subject matter experts that reiterate and reinforce the teaching points. A "Student Workbook" document (PDF) is included on the DVD-ROM for printout from a computer.
